

Model Number 72F:WODF-MOA-309-LAD72F

Model Number 60F:WODF-MOA-309-LAD60F

## General Introduction

Wall mounted Fiber termination units are used for splitting/termination of fiber service connection in locations like multi dwelling units and small offices, where the port counts are low to moderate. Separate access with individual lock and key doors are provided for cable termination and splice (input) areas to restrict customer access. The box is made from high quality plastic. This is a perfect cost-effective solution in the FTTx networks for both indoor and outdoor environments.

## Product Photos

Size : 485x415x145mm

## Product features

- ❖ Number of ports from 60 & 72
- ❖ Provision for cable anchoring; cable straps included
- ❖ Cable reeler with minimum bend radius
- ❖ Stackable splice tray.
- ❖ Radius controlled cable routing.
- ❖ Heat resistant, high impact plastic parts.
- ❖ IP 54 Rating
- ❖ Enough space for cable storage
